LIVE CASINO SOLUTION PROVIDER

- RELIGA. streams live from **Land-based Casinos** and **Custom-built dedicated** studios.
- Streams are in HD and **optimized** for both web and mobile gaming.
- Game UIs were developed after extensive market research and in-depth **player preference analysis**.
- At RELIGA. we develop bespoke **Gaming Themes**, according to client's needs.

BEST IN CLASS SERVICE SOLUTIONS

OUR PRODUCTS:

- HYBRID REAL LIVE CASINO
- REAL LIVE CASINO PLATFORM
- PRIVATE TABLES
- CUSTOM BUILT STUDIOS

HYBRID REAL LIVE CASINO

The solution is designed to **maximize the exposure** of the property online, and open new revenue streams of the existing Gaming Tables, to an **unlimited Online Audience**. The Land Based Casino will not incur any operational charges since the same table and dealer being used for the land-based Casino patrons, will be used Online.

Land-based gambling businesses are highly profitable, but unfortunately, it also encounters limitations. Put yourselves in the shoes of those players who are willing to gamble on a busy night, but the tables are all fully occupied.

Don't fret, we respect your privacy requirements, so the cameras are installed in a way to not showcase the players' identity.

Our on-Site Installation is designed to be as minimal as possible on the Casino Floor, with most equipment being hosted in the Casino's IT Room.

REAL LIVE CASINO PLATFORM

- With such an **advanced live gaming platform**, what goes on behind the visual presentation is extremely complex and cutting edge.
- The promise to deliver a live casino experience online is an incredible challenge, both in terms of providing the service as well as in terms of the logistics to support such a service.

REAL LIVE CASINO PLATFORM

FRONT END FEATURES:

A **slick and highly intuitive** front-end system has been meticulously developed and the **full casino services** are now available online.

A series of table sensors and HD cameras deliver swift and clear visual images, while online gamer moves are instantaneously communicated to the dealer.

This results in a seamless game flow and occurs without disturbing the patrons who are physically present in the casino:

- The privacy of all punters is respected at all times.
- Account management is handled safely and efficiently.
- Data is swiftly transmitted over a secure connection and protected by a host of inbuilt security features.

The front end also incorporates a host of support facilities and other customer services which are handled in exactly the same way as for the live casino.

In fact, the online gamer interacts with the same people who physically manage the casino.

REAL LIVE CASINO PLATFORM

BACK END FEATURES:

This system has been developed so that the operator is able to properly manage the entire gaming platform.

- **Multiple Languages**
- **Risk Management Area**
- **Direct & Lobby Integrations**
- **Marketing Content**

PRIVATE TABLES AND CUSTOM BUILT STUDIOS

Being a single Private Table or a Dedicated Studio with multiple Tables and multiple games. In Live Casino, Private Tables are now the the norm. The Product provides the Operators with an opportunity to offer their players a more customized and personal experience.

Our setup can either be done on a Real Casino Floor or a Dedicated Studio area.

CHOOSE YOUR TABLE OPENING HOURS:

This can be 24/7 or specific times based on the market, time zone or player needs.

PRIVATE TABLES AND CUSTOM BUILT STUDIOS

OUR GAMES

- REAL CASINO ROULETTE
- AUTOMATIC ROULETTE
- STUDIO ROULETTE
- BACCARAT
- SUPER 6
- DRAGON BONUS
- BLACKJACK
- BLACKJACK BET BEHIND

REAL CASINO ROULETTE, AUTOMATIC ROULETTE, STUDIO ROULETTE

RELIGA.'s Roulette is based on the European form, a 37-number wheel with a single zero. This game features all of the most the familiar inside and outside bets as well as providing French bets, Voisins du zero, tiers and orphelins. Additionally, RELIGA. Launched the American variant with a double-zero wheel.

Also featured on some Roulette tables is our multi-camera setup. This special configuration utilizes 3 cameras instead of the traditional single one, giving the player multiple views of the Roulette table. This makes for an altogether more immersive experience for players, which draws players further into the action.

KEY FEATURES:

- Detailed Game History (Numbers, Hot/Cold Numbers, Recent Winners)
- Multi-player (unlimited)
- Video & audio controls
- Live support chat
- Ability to play multiple games at once
- Fully customizable limits & chips
- Multi-camera on select tables

REAL CASINO ROULETTE

Land-based and online convergence doesn't get any more exciting than this. Real Live Casino Roulette adds dual play capability to any Roulette table from a land-based casino so that on-premise seated players and a virtually unlimited number of additional online players can play the same games at the same table.

Customers around the Dual Play table or in other areas of the casino, such as bars and restaurants, can follow the live game action and bet at the table, while players anywhere in the world (subject to jurisdiction rules) can also join the same games on their desktop computers, laptops, tablets or smartphones.

Give your players the confidence and thrill only a real casino can offer, the 'High Definition' streaming backed up with a custom-built solution takes your players to the floor of prestigious and modern casinos.

AUTOMATIC ROULETTE

RELIGA's Auto Roulette is an exciting and visually stunning on-line game based on the Casino classic.

Live Casino Auto Roulette features fast-paced, real live-wheel action with a high-quality look-and-feel. More exciting and authentic than RNG Roulette, our Auto Roulette is a great alternative or addition to Real Live Casino Roulette.

In Live Casino Auto Roulette, there's no live dealer. Instead the live game is powered by an advanced, fully automated, precision Roulette wheel capable of 60 to 80 games per hour, 24 hours a day. Further benefits for operators include half-currency betting units for wider audience appeal, faster game completion than in Live Roulette, and low cost of ownership.

STUDIO ROULETTE

The finest Roulette experience you can dream of.

This classic single-0 wheel set up is designed for the best roulette lovers.

Players can enjoy one of the best variant of the game of Roulette through two different camera angles.

The animated billboard shows to the players the detailed game history (last winning numbers, hot and cold numbes) and the beautiful game presenters will entertain the players even more!

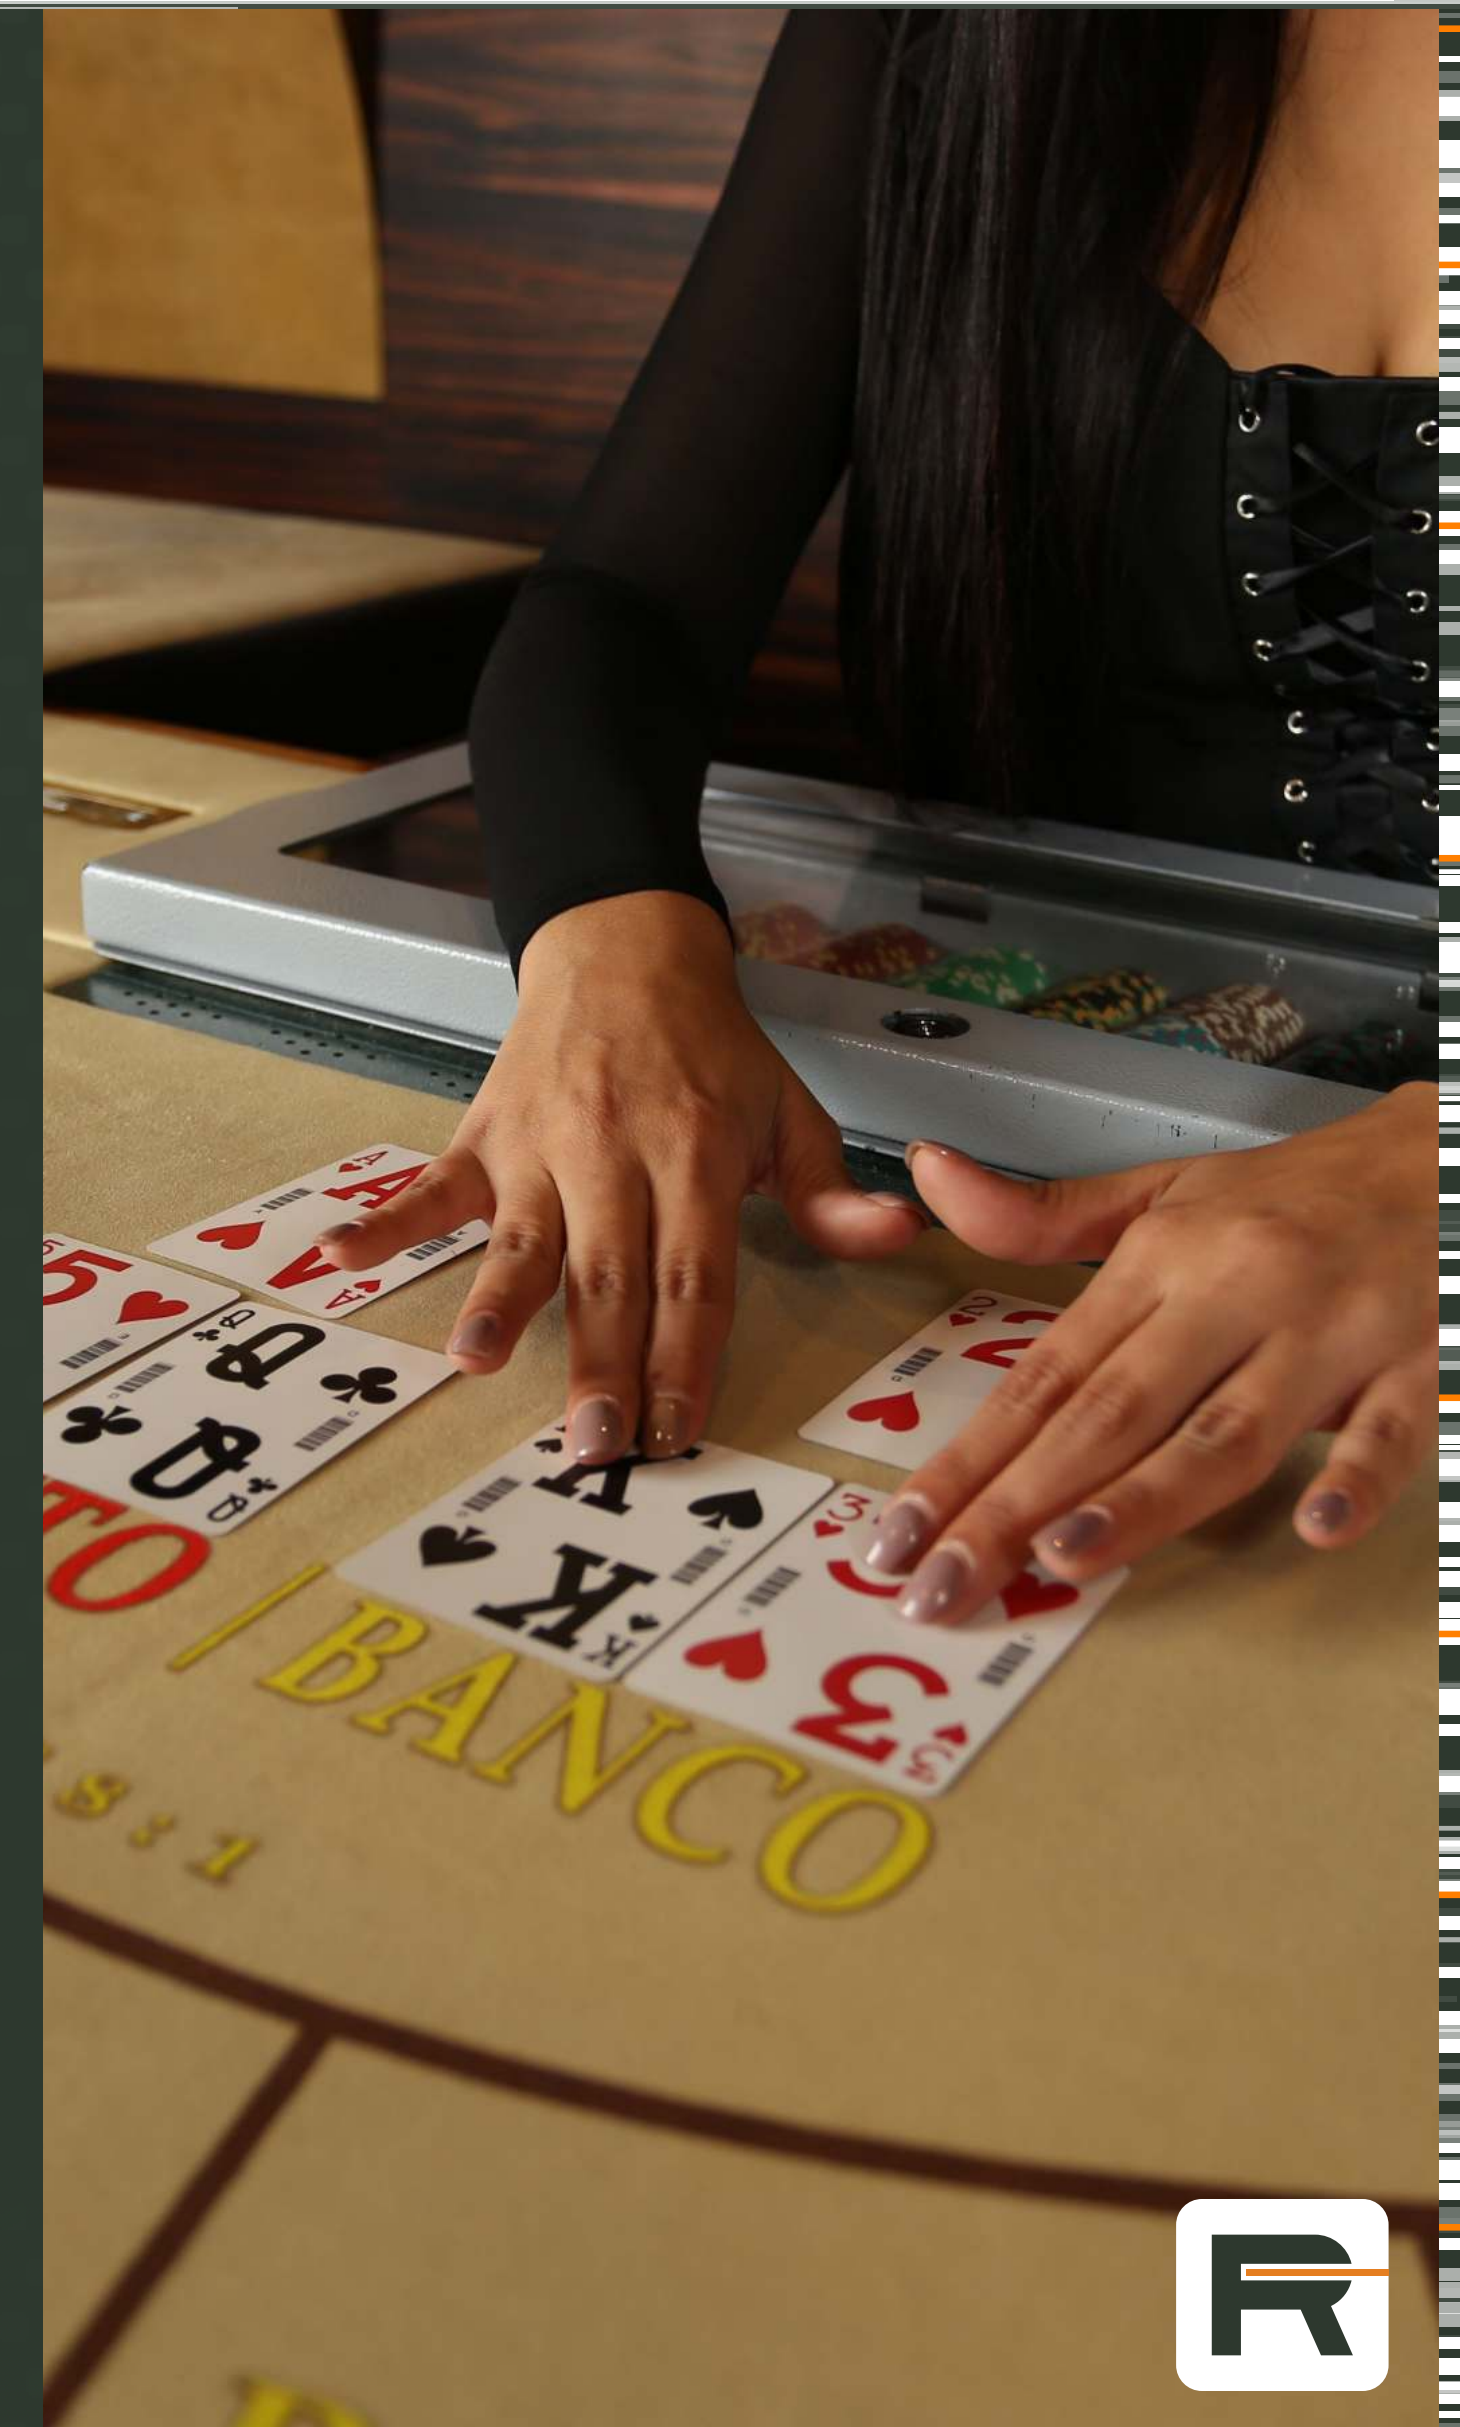

COMMISSION BACCARAT, SUPER-6 BACCARAT, DRAGON BONUS

One of the oldest and in-demand casino games, Baccarat is popular amongst first-timers and high rollers alike, and is especially favored amongst Asian gamblers. Although the game appears serious and sophisticated, it is actually quite easy to master. Players have the opportunity to play in real-time with real players, anywhere they like on our feature-rich desktop, tablet and mobile apps.

RELIGA.'s Baccarat features unlimited players, classic roadmaps for keeping track of trends (as well as extra statistics), numerous side bets and social tools, all of which enhances the experience, increases player involvement and playing time!

KEY FEATURES:

- Available 24/7
- Available on Desktop and Mobile
- Includes side bets
- Unlimited number of players
- The favorite for Asian players

CLASSIC BLACKJACK AND BET-BEHIND BLACKJACK

RELIGA's version of the most widely played casino game in the world, classic Blackjack, remains true to the game you know and love.

Players have the opportunity to play in real-time with real players, anywhere they like on our feature-rich desktop, tablet and mobile apps.

As with land-based casinos, players bet from one of seven seats (an unlimited number of players can Bet Behind) and our professional dealers greet and interact with players through our extremely user-friendly interface. Insurance, Double Down and Split Pair bets are available as well.

KEY FEATURES:

- Available 24/7
- Available on Desktop and Mobile
- Includes "Perfect Pairs" and "21+3" side bets
- Includes "Bet Behind" feature
- Enhanced player experience
